## MEN IN CITY COUNCIL

DR. FRANK M. READE.

No new member of the City Council has made a more enviable record for short service than Dr. Frank M. Reade, who was elected on nomination of the ward delegation some time ago, to represent Monroe Ward in the lower branch, succeeding Dr. Ennon G. Williams, resigned. Dr. Reade was re-elected last year in his ward by a large vote, and held the unique distinction of being the only member of the Committee on Relief of the Poor to be appointed at the time there was a clean sweep in the affairs of the almshouse.

Dr. Reade has been energetic in the administration of the City Home and Hospital, and has introduced many reforms, especially in the hospital and ambulance departments, which have been greatly improved.

He also served some time on the Committee on Street Cleaning and secured the appropriation for the erection of a new incinerator, making a strong argument both in committee and Council on sanitary grounds. He made a tour North, visiting a number of garbage-depositing plants, and recommended the one which the city has contracted for. Recently Dr. Reade has been transferred from the Street Cleaning Committee to the Committee on Finance.

Throughout his councilmanic service he has been an ardent champion of the Board of Health on the floor of the Council. He is a practicing physician, and is secretary of the Medical College of Virginia.

## POLICYHOLDERS FULLY PROTECTED

Liabilities of Southern Fire Insurance Company, of Lynchburg, Reinsured.

Policyholders of the Southern Fire Insurance Company (Inc.), of Lynchburg, are fully protected by an arrangement just perfected by the concern, in which all of the outstanding liabilities are reinsured in the German-American Company, of New York.

This action follows an examination by the Bureau of Insurance of Virginia, which showed the capital of the company to be impaired about 20 per cent. The principal reason assigned by the insurance Bureau for this loss of capital is the fact that the company has for a number of years been paying dividends from contributed surplus. In 1909 the semi-annual dividend, in the face of a losing year's business, was raised from 5 to 6 per cent.

The Southern Fire Insurance Company now retires from business.

Inquiry at the office of the Insurance Bureau yesterday elicited the fact that the company has not yet submitted its contract with the German-American for approval, but it is presumed that this will be done at once.

Some of Lynchburg's best and strongest business men were interested in the Southern Company.

## BIDS FOR PRINTING

Eight Concerns Offer to Do State Work. Though No Award Is Made Yet.

Bids for printing State documents for one year were opened yesterday by Public Printer Davis Bottom, but no contracts were awarded. The bids in some instances were very close together, and extra copies must be figured in many cases, it will be some days before the lowest bidder for every contract can be determined.

Eight concerns submitted bids on the printing, as follows: Capitol Printing Company, Clyde W. Sanders, Co-operative Press, Everett Wadley, Capital Press, Houseman Company, Pilot Printing Company (Inc.), Richmond Press and Williams Printing Company. Some submitted bids on only portions of the work. A smaller number made estimates on the binding.

Some of the contracts.

The printing to be awarded to contract is as follows:

Senate journal and documents, Senate bills and resolutions, House journal and documents, House bills and resolutions, Acts of Assembly, annual reports of State Corporation Commission, Auditor, Second Auditor, Treasurer, Department of Agriculture, Attorney-General, Secretary of the Commonwealth, State Librarian, Department of Public Instruction, Bureau of Insurance, Adjutant-General, Highway Commission, State Board of Charities and Correction, all pamphlet work required by any department of the government and job work.

The prices submitted range from 29 to 45 cents a page, varying with the amount of tabulated matter. As to press work, prices are of the way from 10 to 15 cents per line, and 50 cents on several items. The presswork bids are for 250 impressions.

## JUDGES TO HAVE ROOMS

Part of Lower Floor at Library Assigned to Supreme Court.

Judges of the Supreme Court of Appeals of Virginia are at last to be advanced to the dignity of having offices of their own. In every courthouse there are office rooms for judges of Circuit courts, and in the County Courts were provided with apartments for study and consultation. But the members of the highest court in the State have never been allowed individual offices, a consulting room being provided for the entire court in each of the three places where the court sits—Richmond, Staunton and Wytheville.

The commission having in charge the new State Library Annex, headed by Governor Swanson, has assigned the judges offices in the Supreme Court building on the east side of the annex, to the judges of the court. Further assignment of rooms in the annex will be made later.

## Got Fee of \$400.

Six hundred dollars was earned by the State Corporation Commission yesterday as a fee for granting licenses to do business in Virginia to the Royal Exchange Assurance, of London, Eng., a concern organized nearly 200 years ago, and with a capital of \$1,000,000. H. B. Walker, of Richmond, is the statutory agent.

## Hear Boykin Case To-Day.

At noon to-day Governor Swanson will hear argument as to the regulation asked for in the case of Bertha Boykin, the young Norfolk woman, who is under arrest in Washington, D. C., charged with larceny in Norfolk. The prisoner's attorney is resisting the issuance of a requisition.

## Safe, Clean, Easy to Manage

A hot-air furnace that belches up dust and poisonous gases is not safe, and not clean. Experience proves that it won't heat all of the house, and yet it burns a scandalous amount of coal. The safe, clean heating system—the one that keeps the whole house always warm, yet burns only half as much coal—is the wonderful

## MODEL Heating System

Works so perfectly that a lady or a child can easily manage it. Dust-tight and makes few ashes, because it consumes less coal and burns it completely. Keeps an even warmth in every room, day and night. Steam or hot water.

## CHARGES DENIED BY TRAFFIC MEN

North Carolina Discriminations the Subject of State Inquiry at Raleigh.

SUPREME COURT IS AT WORK

Thirteen Appeal Cases Disposed of on Term's Second Delivery Day.

(Special to The Times-Dispatch.)

RALEIGH, N. C., September 15.—Traffic Manager Greene, of the Southern Railway, R. A. Brand, of the Atlantic Coast Line; H. C. Hedges, of the Norfolk and Southern; and C. R. Capps, of the Seaboard Air Line, were examined before the North Carolina Corporation Commission to-day relative to alleged discrimination against North Carolina in freight rates from Wilmington and other ports to Carolina points inland, as compared with rates from Virginia and South Carolina ports to points inland in the respective States. The railroad officials contended by testimony and through comparative schedules filed that there is no discrimination, and that in some instances the North Carolina rates are lower. They insisted that the failure of freight to be routed through Wilmington north when water transportation is involved is because Wilmington has inferior steamer service, with only two boats per week for New York, as compared with about two per day from Norfolk. The commission will examine into the schedules filed and make a ruling later.

The commission this afternoon heard the traffic managers regarding alleged freight rate discriminations against North Carolina in shipments of coal and brick.
